📍: 8A adeeb maqd St. El-seuif, Alexandria, Egypt.

Birth Date: 05/06/1987

Gender: Male

Marital Status: Married

Nationality: Egypt

Education

- **2005 – 2009 Alexandria Higher Institute of Engineering & Technology B.Sc. Electronic and Communication**

Grade: Excellent. GPA: 3.53

Graduation Project: Excellent grade

Automatic Recognition of Speech Signature using Neural Network We used perceptron and back propagation to learn the neural network model. In the project, we analyzed the speech to extract coefficient to compare with other persons voices.

- **2009 - 2013 Arab Academy for Science and Technology M.Sc. Electronic and Communication**

Grade: Very Good. GPA: 3.3

A thesis of master: Fabrication and Characterization of a Polypyrrole Coated Copper Nanowire Gas Sensor

- **September 2016 - Till Date Zagazig University - Ph.D. Electronic and Communication**

Employment History

- **Teaching Assistant - Teaching Assistant at Alexandria Higher Institute of Engineering & Technology**

Alexandria, Egypt

September 2009 - Till Date

Courses Taught

- Basic Electronics
- Electronics Circuits
- DC / AC Circuits
- Logic Fundamentals
- Digital System Design
- Mathematics
- Physics
- Optical Fiber
- Optical Information Processing
- Data transmission and communication network
- Analog Integrated Circuits
- Digital Integrated Circuit
- Communication System
- Control Systems Theory and Design

CAREER OBJECTIVE

Look for gaining more experience where my educational background and my experience can be utilized and further developed.

EDUCATION

- ♦ Master Degree of Electronics and Communication Engineering
Arab Academy for Science and Technology (AAST), Alexandria Egypt.

Master degree

Excellent (A+)

Master Scope:

An Enhanced Photovoltaic Arrays Modeling Under Partial Shading
Conditions

The main scope is proposing generic open source PV modeling that can be tailored to various cell/panel/array configuration. The presented model is capable of producing sufficient performance power/current/voltage curves in addition to complete system analysis even under partial shading conditions.

- ♦ Bachelor of Electronics and Communication Engineering
Arab Academy for Science and Technology (AAST), Alexandria Egypt.

Graduation Project

Excellent (A+)

Multimedia Application for Microcontrollers

The main scope was to design electronic device using fingerprint sensor to capture digital image of the pattern which are aggregate characteristics of ridges and minutiae (imaging technology) applying safety standards.

EXPERIENCE

Arab Academy For Science And Technology And Maritime Transport
Electronic & Communication Dep.
From Feb 2012 – Present
